

SAEED AHMAD

Senior Software Engineer

✉ saeed.ahmad.webdev@gmail.com ☎ +92-3026966699

Full-stack developer with 3.5+ years of experience building and scaling web applications using the MERN stack. Skilled in React.js, Node.js, Next.js, Redux Toolkit, MongoDB, and PostgreSQL, with hands-on expertise in RESTful APIs, Keycloak authentication, and Docker-based deployments. Currently leading projects at DevVerx as a MERN Stack Developer & Team Lead, driving end-to-end development, Agile workflows, and cloud deployments on AWS and DigitalOcean. Passionate about delivering secure, high-performance solutions and collaborating in dynamic team environments.

Experience

INTERNEE, COMSATS UNIVERSITY SAHIWAL SOFTWARE HOUSE.

JANVERY 2021 - MARCH 2021

- Practiced HTML, CSS, and Bootstrap to build web applications
- Contributed to the development of the fitness club FYP project, enhancing functionality and user experience.
- Collaborated with team members to implement and troubleshoot web features.
- Gained hands-on experience in front-end development and project workflow management.

INTERNEE, BOOTCAMP BY TECHLIFT

FEBURARY 2023 - MAY 2023

- Developed responsive front-end interfaces using HTML, CSS, Bootstrap, JavaScript, and React.
- Built backend services with Node.js, Express, and MongoDB for data management and API integration.
- Created an e-commerce website, including product listings and shopping cart features.
- Designed a task management application with React.js to manage and track to-do items.
- Developed a weather app using React.js and REST APIs to deliver real-time weather updates.

MERN Stack Developer, Status200 Pvt Ltd

September 15, 2023 - September 28, 2024

- Contributed to the development of Enable Lifecare, a comprehensive health management system using the MERN stack.
- Developed and maintained a Task Management Chat App using ASP.NET, focusing on real-time communication and task organization.
- Collaborated with cross-functional teams to design and implement scalable web applications.
- Integrated various APIs and services to enhance application functionality and user experience.
- Participated in code reviews and debugging sessions to ensure high-quality deliverables.
